RECOMMENDED ACTION			
Receive the City Council's input on the Solid Waste and Recycling Transition Plan.			

EXECUTIVE SUMMARY

The purpose of this presentation will be to provide City Council with an update of the solid waste and recycling transition plan. The Community and Environmental Services Department will present the detailed program results and survey results for automated collection of solid waste and recycling, a green waste recycling program and bulky waste program.

The transition plan was implemented on August 30, 2010. The transition plan provides approximately 1,800 residents in seven neighborhoods with once a week automated collection of garbage and recycling using a 95-gallon cart, once a week collection of green waste and semi-monthly collection of bulky items. The participating neighborhoods include Plantation Colony, Magnolia Plantation, Lakefield, Austin Park, Lakes of Austin Park, Colony Park and Sweetwater Sections 1, 2, 3, and 3A.
